PREVIOUS WORK EXPERIENCE

DeepData B.V: **Front-End Developer - October 2018 - Present**
As front-end developer at DeepData I manage various online platforms built with Laravel, updating existing code repositories and implementing new website features.

Webafrica: **Front-End Developer - September 2017 - September 2018**
Front-End Developer - March 2016 - September 2016
As front-end developer at Webafrica I worked closely with the lead front-end developer, back-end developers and marketing team in an agile & scrum environment. Duties included overall management of the Webafrica website & code repositories, implementing new website features utilising the bootstrap framework along with jQuery and Google Maps JS API.
Web Designer - December 2014 - March 2016
As a web designer at Webafrica I worked in a team, managing, maintaining, designing and developing Wordpress websites for clients, creating MySQL databases, managing domains, transfers and setting up the hosting environments. Other duties included basic SEO tasks and reporting through Google Analytics.

JC Multimedia: **Owner - December 2013 - September 2018**
JC Multimedia was my freelance company where I provided services in web development, graphic design, photography & film making. Notable companies I worked with include The Chaeli Campaign, ClipinHair, Durr Estates, Momentum Factor Investing, Kew Community Trust, and Air Compressor Engineering (ACE).

Essential Travel: **Graphic Designer & Web Designer - May 2012 - December 2013**
Whilst at Essential Travel I was the in-house designer, taking on numerous design tasks for their online marketing campaigns. These design tasks included banner adverts, promotional material, affiliate marketing banners, social media (Facebook competitions, posts and covers, Twitter and google+) Infographics as well as web design mock-ups and email newsletters.

Various: **Freelance Multi-media & Design Work - October 2008 - May 2012**

Top 15 Performer at Webafrica for Quarter 2 - 2016
Top 15 Performer at Webafrica for Quarter 3 - 2015

PASSION PROJECTS

I have two passion projects: The Hiking Chronicles which is a hiking & camping blog I maintain with my partner, and Property On Show which is a property listings website for the South African market.

I enjoy coming up with ideas to develop the next big thing! This is definitely harder than I would like but it's worth a shot. I like to spend time outside enjoying nature, hiking and climbing mountains. I also enjoy the occasional bouldering session as well as letting off some steam on the PS4.
